# RESTAURANT

## *Lofoten on the menu*

## RESTAURANT FANGST

### THE WORLD'S BEST RAW MATERIALS

*From our conference room on the second floor, you have quick access to our restaurant that are reserved for our guests.*

The chef plans the menu according to the season and the kitchen staff ensure a complex taste experience based on local ingredients and traditions. The expression in the restaurant is modern bistro / fine dining, where Lofoten's history is presented on the plate. Here, breakfast, lunch and dinner will be served. If desired, you can enjoy your meals in your own chambre séparée.

The fish landing is a central part of **FANGST**. With access to the world's best ingredients only a stone's throw away from Hattvika, the fish will obviously have a large footprint on the menu. It is possible to hand pick today's dinner in dialogue with our chef. From the fisherman cottages, the boardroom and the restaurant you will be able to see the small fishing boats docking our own quay to unload today's catch, which will vary from season to season. Through the whole winter, it is the legendary Lofoten fishery that keeps the fishermen busy, and you can feel the smell of the skrei (codfish) that hangs on the fish drying racks in all of Hattvika and the Lofoten islands.

*On the fish landing you can also get your own cooking course, where you can get close to the ingredients in Lofoten.*
