ACCOMMODATION

Regarding Lofoten fishery and the origin of the fisherman cottages in Hattvika, built approx. 1850, the history is still present in our facilities. Our oldest fisherman cottages have lodged fishermen for generations, and today, they are beautiful historical gems for guests that seek adventures and peaceful getaways. Our tailor-made offerings are planned to preserve memorable guest experiences throughout your stay and echo for a long time.

HATTVIKA SEASIDE SUITES

Our new Hattvika Hillside Suites represent the future with their distinctive design and cosy decor. Hillside is designed to bridge the gap between traditional fisherman cottages and modern cabins. The hill's location gives all the buildings a unique placement and view – carefully embedded in the terrain and placed a few steps away from our restaurant, FANGST.

Hattvika Lodge, off the beaten path.

BENDIKSENBUA

Bendiksenbua is our most spacious and luxurious unit – located in the heart of Hattvika Lodge. Tor Bendiksen, the grandfather of Guri (the owner of Hattvika Lodge) used this cottage fifty years ago for his day-to-day fishing. Today this fisherman cottage has two large bedrooms and two bathrooms. The living room is spacious, with high ceilings and a fully equipped kitchen, while the interior is modern Nordic and reflects the fisherman's heritage.

Bendiksenbua is for quality-conscious guests. It's more than a cottage. It's a statement, and has direct access to its terrace with a Jacuzzi, outdoor shower, and plenty of space for the morning coffee as the sunrise hits this part of Hattvika first.

Hattvika Lodge, your source of relaxation.

SAUNA

Here in Norway, we think the sauna is of enormous physical benefit, but that benefit depends entirely upon your ability to relax while taking the heat.

SAUNA

The arctic is stunning year round, but the weather conditions can be harsh. What is better than entering Lofotens most stunning sauna after your adventure while staying at Hattvika Lodge. Please note there is an outdoor shower in the sauna as well. Fresh towels are present.

Only private booking.

Hattvika Lodge - we love to heat you up after cool adventures!

RESTAURANT FANGST

RESTURANT FANGST

AMONG THE WORLD'S BEST AREAS TO
HARVEST DIRECTLY FROM THE OCEAN.

Restaurant FANGST, you are seated at the waterfront with a first-hand view of the local fishermen's access to the sea, the port of Ballstad.

Our chefs plan the menu according to the season, and the kitchen team ensure a complex taste experience based on local ingredients and traditions. The alignment is a mixture of modern bistro and fine dining, where Lofoten's history is presented on a plate. The seating makes it possible to soak in the scenery while watching our chefs prepare your meal.

FANGST is the place where breakfast, lunch and dinner are served. With access to Norway's best ingredients only a stone's throw away from Hattvika, the fish will have a large footprint on our menu. It is possible to hand-pick today's dinner in dialogue with our chef. From the restaurant, you will see the small fishing boats docking our quay to unload today's catch, which will vary from season to season. You can see skrei (codfish) that hang on the fish-drying racks all over Ballstad and the Lofoten islands. This is LOFOTEN!

Our menus are tasting menus seasonal and curated by tradition and fusion from other parts of the world. We are always ready to onboard new ideas, and our wine pairing accompanies the best dining experience up north.

At FANGST, you can also book your cooking course to get in touch with the ingredients of Lofoten.

OUTDOOR ROOTED

Ski mountaineering / Snowshoeing

The Lofoten mountains are formed by rocks older than northern Europe, and are more than 3 billion years old! Our backyard is YOUR playground. At Hattvika Lodge, we are mountaineering as often as possible, and our guides have extensive experience while knowing the best areas to ski. World-class descents are ready for you, and the best season for skiing in the Lofoten archipelago is mid-February to April.

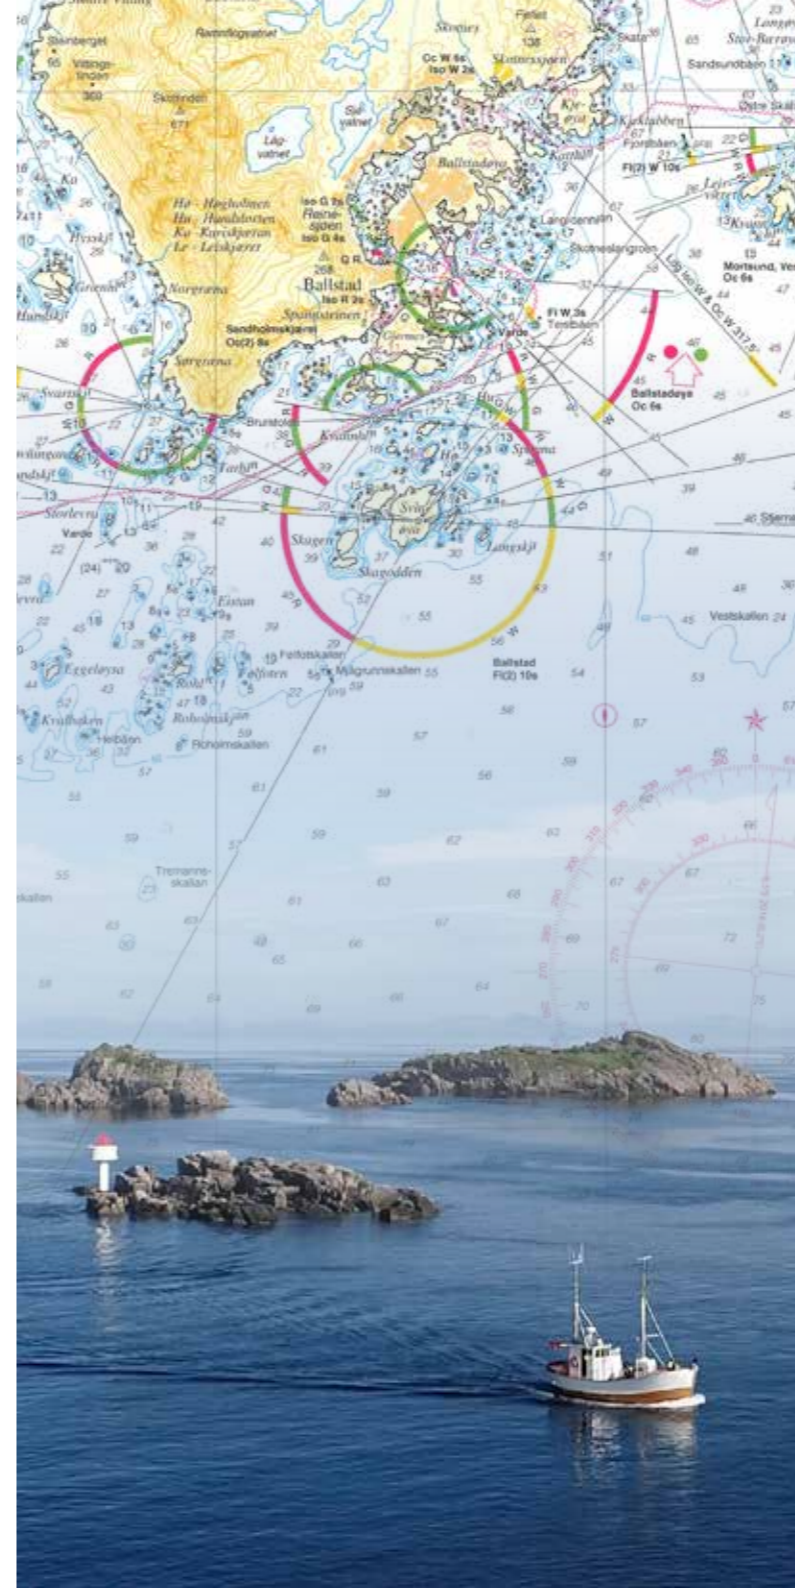

When winter falls in northern Norway, a blanket of snow covers everything in a pristine white layer, and hiking with snowshoes is a fun way to get close to nature during the winter season.

Fishing with local fishermen

The legendary Lofoten fishery kick-off starts in the first days of January, this is the best period to join local fishermen to catch your dinner!

Photo guiding

The Lofoten islands are on the bucket list as a destination for many photographers, and Hattvika Lodge has become a popular base camp for photographers visiting the archipelago. Over the years, we have partnered with the best and can guide you with local professionals on your photography journey. It's also possible to schedule workshops depending on your needs.

Lofoten are surrounded of water, try it out!

RIB Safari/ sightseeing/ transport

The fastest access to scenic places in Lofoten is by RIB/ fast boat, and at Hattvika Lodge, we have access to the best operators in the area. For a unique adventurous arrival to Ballstad, we provide transportation from Bodø, Steigen and Harstad.

E-foil

The mission statement of going E-Foiling is the freedom to ride anywhere, anytime, without wind or waves, by causing zero-emission. This unique adventure is available on request and availability at Hattvika Lodge. An E-Foil is an electric hydrofoil board that gives you the experience of flying over any body of water – no waves, wind, or towing required.
